THINGS HAPPENING AT NORTH HILL

Exciting things are happening at the North Hill Country Club since Harvey Moore, Ralph Doering and Roy Littlehale acquired the golf course and close to 300 acres. They are partners of Liberty Square Associates, a firm that has plans for an attractive development now being planned by Emil Hanslin, who, said Time magazine, is pre-eminent in his field.

By July 4th the clubhouse is expected to be completely remodeled, with a snack bar on the first floor, which is enclosed by glass panels, and a second-floor roof deck overlooking the golf course against a piney backdrop.

Two sides of the second-floor patio give a panoramic view of the rolling greenery. All facilities will be open to the public, as well as to members of the North Hill Country Club.

The club will operate under the management of Peter and Gregory Moore, twin sons of Mr. and Mrs. Harvey Moore.

Those attractive young ladies behind the snack bar are Heidi Hutton, Laurie Root and Winnie Jones.

Watch for news of the gala opening, expected to be on or around the Fourth of July.
